Ecological Modelling 74 (1994) 321–322

ECOLOGICAL MODELLING

Contents of *Ecological Modelling*, Vol. 74

VOL. 74 NOS. 1,2 JULY 1994

Special Issue

Modelling Reservoir Ecosystems
Edited by M. Straškraba

Editorial vi

Ecotechnological models for reservoir water quality management
M. Straškraba (České Budějovice, Czech Republic) 1

Models of the structural dynamics in lakes and reservoirs
S.E. Jørgensen and S.N. Nielsen (Copenhagen, Denmark) 39

Implementation of individual-oriented models in aquatic ecology
L. Lhotka (České Budějovice, Czech Republic) 47

Modelling tracer dispersal and residence time in a reservoir
G.C. Hocking and J.C. Patterson (Nedlands, Australia) 63

Modelling of the water quality of a proposed impounded lake of a tidally influenced river
H.K. Bach and J.K. Jensen (Hørsholm, Denmark) 77

Modeling for water quality decisions: uncertainty and subjectivity in information, in objectives, and in model structure
O. Varis (Espoo, Finland), S. Kuikka (Helsinki, Finland) and A. Taskinen (Espoo, Finland) 91

Principles for calculation of transport and water quality in strongly regulated reservoirs
M. Virtanen, J. Koponen (Espoo, Finland), S. Hellsten (Oulu, Finland), O. Nenonen and K. Kinnunen (Rovaniemi, Finland) 103

Probabilistic uncertainty assessment of phosphorus balance calculations in a watershed
A. Taskinen, O. Varis, H. Sirviö (Espoo, Finland), J. Mutanen (Mikkeli, Finland) and P. Vakkilainen (Espoo, Finland) 125

Announcements 137

Announcement from the Publisher 138

VOL. 74 NO. 3 AUGUST 1994

A model for analysis of multivariable systems with an application to ecology
B.K. Papadopoulos, T. Yiannakopoulou and N. Elias (Xanthi, Greece) 139
A method for robust calibration of ecological models under different types of uncertainty
O. Klepper (Bilthoven, Netherlands) and E.M.T. Hendrix (Wageningen, Netherlands) 161
Modelling of soil carbon dynamics as a part of carbon cycle in terrestrial ecosystems
N. Goto, A. Sakoda and M. Suzuki (Tokyo, Japan) 183
Mathematical models to evaluate retention and transport of chromium(VI) in soil
M.C. Amacher (Logan, UT, USA) and H.M. Selim (Baton Rouge, LA, USA) 205
Latitudinal–altitudinal inter-relationships for the surface temperatures of the Northern hemisphere freshwater lakes
S.V. Ryanzhin (St. Petersburg, Russian Federation). 231
A regional organism exchange model for simulating fish migration
E. Reyes (Baton Rouge, LA, USA), F.H. Sklar (Columbia, SC, USA) and J.W. Day (Baton Rouge, LA, USA) 255
The diffusive Lotka–Volterra model as applied to the population dynamics of the German carp and predator and prey species in the Danube River basin
T. Kmet' and J. Holčík (Bratislava, Slovak Republic) 277
Mathematical simulations of man-made microbial mixture grown on natural gas
I.R. Spivak and J.S. Rokem (Jerusalem, Israel) 287

Short Communication
Dynamics of populations with nonoverlapping generations, continuous mortality, and discrete reproductive periods
A.L. Jensen (Ann Arbor, MI, USA) 305
